

Our colleague the Tribune admits the fact, and suggests the existing state of things. We have over and over again advocated the same. A few murderers or robbers taken in the act by any District Committee of the neighbors in any district, and hanged forthwith on the nearest tree, would have a lasting effect on our criminal classes of all nationalities, which are, as a rule, the most cowardly on the face of the globe.

On a volume of poems by an author of the name of Howells, a North American contemporary concludes a critique with the following:

"Call you this poetry?"  
"Mad Apollo grows!"  
"Better have named it truly,  
Howells by Howells!"

At the last meeting held by the Young Men's Christian Association for the following members were elected—  
For President, M. C. Miguez,  
Vice President, Henry Martin,  
Secretary, J. A. Cook,  
Treasurer, D. H. Linay,  
For Executive Committee—  
Wm. Tull,  
Wm. Cook,  
A. M. Hudson.

It was resolved that the Association hold its next public meeting on the 2nd Thursday of June.

The *Anales de Agricultura* of the 1st of May will keep up the reputation of this useful publication. The frontispiece is a portrait of the famous racing stallion *Galles the First*, the property of the Austrian Count Von Donnemark. The usual number of interesting articles on machinery, grafting, agriculture etc. follow.

Music is the order of the day. Tonight Sr. Reyner's grand concert comes off at the Colon Theatre. On Tuesday another will be given in the same place for the benefit of the sufferers by the civil war in Spain, and Canonge, the great Spanish Wizard, will perform all his most renowned feats. All charitable people will wish this concert success. The sufferings of poor Spain just now are trifles in the extreme.

American Hecor's Paris paper the *Americano* has changed hands. A Mr. Fernando Casas is now the proprietor. A section in French will shortly be added to the paper.

A new town to be called San Juan is contemplated on the Southern line. The site chosen is five leagues from Ranchos and seven from Chilweoc.

The last mail from Europe brought intelligence of the death of two gentlemen well-known and much respected in Montevideo. One was M. Biraben, member of the firm of Ducases and Co., and who had lived 20 years in these countries. The other was Major Moran, who was killed in the Bilbao attack on Abanto before Bilbao on the 27th of March. Moran is an old Irish name.

Snow fell in Paris from the 10th to 13th of March. A savant, M. Deville, had predicted that it would fall on the 9th to the 13th. This is the best weather guess we ever heard of. If we could secure Mr. Deville for the STANDARD staff we'd make of the Seine and the Municipal Vanda of the Seine are going to cut a street through the lovely gardens of the Tuilleries. They ought to be kicked.

An important letter from Paraguay, with a full description of recent events up there, will be found in another column. Our heart bleeds to learn that a newspaper man was sent to 'Kingdom come' in the scrimmage.

The railway project to Montevideo is a new thing out at Connecticut city with Colonia by a line along the coast. To B. Ayres in six hours is the programme of the promoters, who intend to put on fast steamers between this city and Colonia. It is rank rubbish for the Orientals to be dreaming of railway projects with their country so woefully 'hard up' as at present.

A colleague says that some domestic oxen were lately seized in the Corrales. This is serious. Epizootic beefsteaks are not the most healthy dish for breakfast. See to this Messrs. Inspectors!

A fellow named Camilo Maldonado was lately fined in costs, 200 pats., or two months in jail by the Montevideo Courts for beating and starving a poor child servant girl in his service, and such an extent that she ran away, and was found almost dying on the public road. This unmitigated savage ought to be whipped.

Mr. Berthault, the great French landscape gardener has returned to the Plate from Europe with a large supply of trees and fruits of the other Hemisphere. Apples, pears, figs, cherries, gooseberries and everything else can be had from him on application, and 'a contado.'

The report that a Professor at the Caballito College had his head riddled with bullets on the Flores Road the other night was the invention of our colleagues, who are extremely extremely hard up for a joke. The gentleman alluded to favoured us with a call yesterday, to say that it is all a blessed lie. We examined his hat, and can vouch for his statement.

A western stump orator, in the course of one of his speeches, remarked: 'Gentlemen, if the Par-ty-ocean war an inkstand, and the hull clouded canopy of heaven and the level ground of our yearn wor a sheet of paper, I couldn't begin to write my love of country onto it.'

The Rev. Dr. Smith, the esteemed English Chaplain, requests 'us to acknowledge that he has received from the Buenos Ayres Theatians the sum of \$5000 mpc; for charitable purposes.

The pestilential state of filth of that part of the Retiro where the troops encamp has been brought under the notice of the Municipality. It is bad enough to breed 50 plagues.

An enterprising gentleman named Burel, at Moron, has taken to making bricks out of solid saladero refuse. Beet bricks are a decided novelty in the building line.

We have received the latest *Pueblo* from Mercedes. There is nothing new from that quarter except that a merry-go-round is about to be put up in the Plaza.

Mr. Casali, the well-known circus man, together with all his interesting family, was lately pitched head over heels from a carriage in the streets of Carmen de Arco, when on his way to Salto. No one was scratched a little, but no bones broken. Valuable offerings to the church at Arco continue to be sent in by wealthy parishioners.

The Municipality of Rosario has at last resolved to suppress bull fighting; it has given the 'empressa' fifteen days to shut up. It is about time to suppress this brutal diversion. Athletic Sports (these are something like) are announced to come off on the 4th June. The Spaniards in Rosario have subscribed 3,000 pats. for the relief of the sufferers by their civil war at home.

The Cordoba papers to hand yesterday contain nothing of interest. It is very cold; there have been numerous resignations in the judicial and official worlds; people are getting very anxious about the 200,000 pats. Loan negotiated with the National Bank here; Mr. Manuel Torres has started as a land broker—"et voila tout" from the learned City of the Doctors.

The *Anales de la Rural Society* for April says that the country has had enough and to spare of Politics. The Cattle and Flower show will come off on the 11th of October. Exhibitors can apply for space up to the 3rd of October. Animals and vegetable products can be sent in up to the 3rd of October; animals, fruit and flowers up to the 10th; the Show will close on the 19th of the same month, when the prizes will be distributed. There will be an auction of the animals, if the owners like, on the 20th. The Society will feed and care the animals during the Show, and everything and everybody—bulls, bulbs and Boetians—must clear out on or before the 26th, when, we suppose and hope, the whole affair will wind up with a jollification.

The American poet laureate, Smith, has taken to joking, as poetry is rapidly bringing him in a fortune. He says his wife never fell in love with anyone the other day, and he is quite certain, if she had gone a step farther, his child would have had a step mother. When Mrs. Poet Laureate Smith heard of the joke at her expense, she made it recoil on the poet; as she stiffly stared all his stockings for the next month.

Kidd's Guia for May is thicker than any of its predecessors. This looks well. We remark that all the leading houses in town now advertise in the Guia, which is admirably conducted and deserves the success it has achieved.

There was another contretemps at the Solis Theatre Montevideo on Tuesday night. At a concert given there a Dr. Juglaris went in for reciting a canto of Dante's, but accompanied the inspired words of the great poet with such windmill action of his arms that the audience at last burst into a roar of derisive laughter, uttered cover of which the doctor, muzzled, protested as we have latterly seen recorded many similar break downs by artists performing there. It is well they all end in laughter, which hurts nobody.

The 'boxe,' as our French friends call it, is getting quite too fashionable on the Bolsa. Twice within a week have parties calling themselves respectable resorted to their fists to settle their disputes. The members should take the law into their own hands and expel away from their body guild of such conduct. If an example be not made of the next offenders they shall soon have the revolvers flourished round the Ring.

Singing and scuffling. The well-known tenor Sr. Astort has given up the stage and is going home to Spain to start a paper. A sign of the ticklish times this.

Señor Romero was much esteemed by the Flores residents as an amiable and polite official, and over ready to do his best to oblige the Flores public.

The returns of the Montevideo Custom House for the month of April are really surprising, and show clearly that receipts will be falling off owing to the decline of the Montevideo Custom House receipts are increasing. The following is the table—
